Enter First Number:

Enter Second Number :

Operation :

Calculation Result

Hi There,

Result of 3 and 4 : 12

Please go to [Calculator page](#)

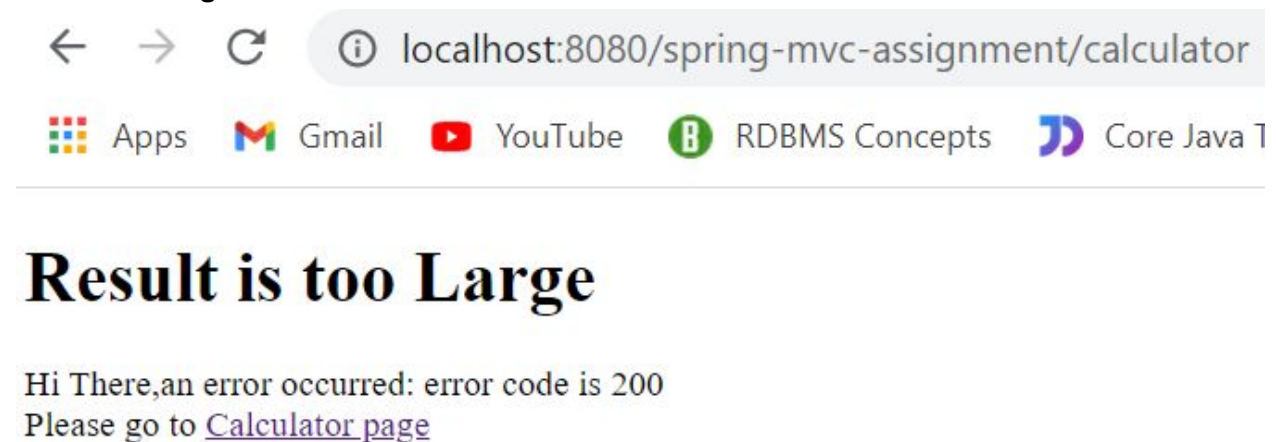

Division by Zero Exception Handled-

A screenshot of a web browser window. The address bar shows 'localhost:8080/spring-mvc-assignment/calculator'. The browser's tab bar includes 'Apps', 'Gmail', 'YouTube', 'RDBMS Concepts', 'Core Java Tutorial ~...', 'Angular - Tour of H...', 'Meet - cnd-iquz-pje', and 'Inbox (10)'. The main content area displays the heading 'Divide by Zero Exception Occurred' in a large, bold, black serif font. Below the heading, a message reads: 'Hi There, an error occurred: error code is 200' followed by 'Please go to [Calculator page](#)'.

{"Message":"divide by zero throws arithmetic exception","Operator":"Divide"}

Result too large-

A screenshot of a web browser window. The address bar shows 'localhost:8080/spring-mvc-assignment/calculator'. The browser's tab bar includes 'Apps', 'Gmail', 'YouTube', 'RDBMS Concepts', and 'Core Java T'. The main content area displays the heading 'Result is too Large' in a large, bold, black serif font. Below the heading, a message reads: 'Hi There,an error occurred: error code is 200' followed by 'Please go to [Calculator page](#)'.

Generic Exception Handled

A screenshot of a web browser window. The address bar shows 'localhost:8080/spring-mvc-assignment/calculator'. The browser's tab bar includes 'Apps', 'Gmail', 'YouTube', 'RDBMS Concepts', 'Core Java Tutorial ~...', and an 'A' icon. The main content area displays the heading 'Input should not be blank and must be numeric!' in a large, bold, black serif font. Below the heading, a message reads: 'Hi There,an error occurred: error code is 200' followed by 'Please go to [Calculator page](#)'.
